INTERIOR CLADDING

# INTERIOR CLADDING

Stratificato Print HPL is a material that offers excellent qualities, both functional and aesthetic. Ideal for all applications where strength and design need to be combined, Stratificato Print HPL is the most qualitatively reliable material and the one with the most extensive aesthetic potential for interior cladding. in such diverse public environments as health spas, gyms, resorts, swimming pools, hotels, sports centers, schools and kindergartens, factories, hospitals and laboratories. Traditional walls can easily be completely replaced with partitions in Stratificato Print HPL, which optimize space while minimizing maintenance.

A photograph of a modern interior space. On the right, a white, curved sofa is partially visible. The background wall is covered in large, light-colored marble tiles with dark, veined patterns. The floor is a light, neutral color. In the center of the image, there is a logo consisting of a globe icon followed by the text "proal.me".
