solutions from the future

DIGITAL PRINT

DIGITAL PRINT

Abet Laminati is renewing digital print. Abet Digital is born. A new brand, a complete service, a clearer and easier way to customise your decorative elements, thanks to the flawless quality and experience of Abet Laminati. Discover the unlimited potential and all the applications of Abet Digital.

HPL laminate can be customised with any image (picture or photograph) and produced in any quantity in the available sizes. Many different solutions, from the object to print to the surface finishes, guarantee the highest flexibility in production and a great aesthetic impact.

Complete rooms or perfect details with colours, pictures and textures. Be it to furnish or to communicate via Abet Digital, you create your laminate with the unique distinguishing feature you want.

Abet Digital is suitable for exteriors as well. Digital print on MEG is used to make façades cladding, sunscreens, balconies and parapets and you create urban furniture and external signs.
