

PRAL

solutions from the future

KITCHEN TOP

KITCHEN TOPS

Compact and non-porous, extremely higienic and easy to clean, our table tops made of Stratificato Print HPL resist the development of viruses and bacteria, and have an excellent resistance to water and steam

Stratificato Print HPL, with its extensive range of colours and designs, production grades and surface finishes, offers the client unlimited creative solutions

Moreover, the table tops made of Polaris are smooth and velvety to the touch, and its surface features are truly extraordinary: it is highly resistant to scratches and heat, as well as being anti-fingerprint
