LOCKERS

LOCKERS

With more than 400 decors and 19 finishes, our lockers come in a wide variety of configurations and sizes.

This application has a large range of uses from changing rooms in sports facilities and health services, as well as in industrial environments.

Generally standing on appropriate feet, they are extremely practical, easy to clean, hygienic, durable and require minimal maintenance.

The structure of the lockers is made up of two clearly distinct parts the structure and the door.
